DRYSPEED GEAR,
INDONESIA'S VERY OWN
OUTDOOR APPAREL COMPANY
ENSURING COMFORT AND
DURABILITY ON YOUR NEXT
ADVENTURE

100% waterproof material products where innovation meets adventure. Created with advanced technology for unmatched quality and performance

OUR STORY...

DrySpeed started on a simple island trip in Indonesia with friends. After swimming and exploring, I needed a place to toss my wet clothes—but all I had was a regular backpack. Everything inside got soaked. That moment made me realize: there had to be a better way.

Later on, after playing tennis or finishing a gym session, I faced the same issue—wet gear, sweaty clothes, and no clean way to carry them. So I set out to fix it.

DrySpeed was born out of real-life frustration and a drive to make everyday adventures simpler, cleaner, and drier. Today, our waterproof bags are built to handle the mess, so you can focus on the journey.

DrySpeed isn't just about bags. It's about giving you the freedom to move confidently, stay organized, and live life without worrying about water or sweat ruining your day. Wherever you go—stay dry, move fast, and live freely with DrySpeed.

We created DrySpeed—durable, lightweight dry bags designed for both adventure and everyday life. Whether you're kayaking, hiking, commuting, or leaving the gym, our bags keep water out (or in), so you don't have to worry about the mess.

Made with tough and soft waterproof materials like PVC and TPU, and featuring double straps for comfort, our bags are built to move with you—wherever your day takes you.

Introducing DrySpeed...

DrySpeed are built to protect your gear from water, mud, sand, and even full submersion. Whether you're out on the water, deep in the woods, or caught in the city rain.

- Made from durable TPU, PVC, and soft fabric material
